

**Innovate
while
you
can!**

Atul Chitnis

<http://atulchitnis.com>

So you thought
that this talk
was over
and
you could all
go home now
?

I have talked a
lot about what
others have
done

Now lets talk
about what you
have done
and
what you could
do

Pay Attention
This is my real
agenda

There are TWO
times in your
life when you
can innovate:

One is when you
are a student

Examples:
Google
Yahoo
Microsoft
Linux
Netscape

The other is
when you retire

Example:

Me
(Maybe)

Between the
two lie 25-40
years of hard
work, with no
time for
innovation

When do
you
want to start
doing
something
innovative?

There are tons
of opportunities
waiting out
there, waiting to
be exploited

And there are
lots of resources
available to you
to do so

Free and Open
Source Software
is one such
resource

Your brain is
another

Get them
together

Start innovating

Now!

Now
I
Am
Done!

Any Questions?
